

# confirmation of export (EN, BestaetigungAusfuhr)

The message serves as notification of the export of goods from the territory of the Union. It is always sent to the creator of the export declaration in the form of an exit note, regardless of the constellation of participants. An additional transmission to the exporter is also possible under certain conditions. A PDF document is sent as an attachment.

In the case of an incomplete declaration, the proof does not contain any information that was only transmitted with the supplementary/replacement declaration, even if the creators of the messages "Declaration for export" and "Supplementary/replacement declaration for export" are identical.

All information in this document is purely informative and does not constitute instructions or templates for submitting customs declarations.
The declarant is solely responsible for the content of a customs declaration. All information is provided without warranty.
