

WKS Invalidation Request for ASumA (EXSCAN, InvalidationRequestExitSumDecWKSDE)

This BOX object cancels a summary exit declaration in the WKS procedure.

The request for the invalidation of the ASumA is a message from a participant to the customs administration.

Cancellation is possible once the summary exit declaration has been registered and therefore even after the exit has been confirmed. Cancellation is not possible if

- the customs office has already scheduled the exit summary declaration for inspection,
- the exit of the goods has already been prohibited or
- The exit of at least one package of the exit summary declaration has already been confirmed.

The application for invalidation of the ASumA must be submitted by the declarant, who must be identical to the declarant specified in the referenced exit summary declaration.
