

Confirmation of preliminary IMPOST declarations (IMPOSTconfirmation)

This BOX object can be used to confirm an registration for courier mail declarations (registration type PPDC) that was submitted preliminary and has already been registered with ATLAS.

At the same time, the completions can be added and changed. If all completions were already recorded when creating the preliminary registration for courier mail declarations, they do not have to be transmitted again. However, if completions are notified, they must be in full as they replaced the existing completions in their entirety.
