

IMPOST courier mail declaration (IMPOSTdeclaration)

When creating via the BOX interface, the element <Zollanmeldeart> must be used to indicate whether a preliminary or a final declaration should be created. The valid values for this element are:

PKDC	final declaration
PPDC	preliminary declaration

With REPLACE, that specification must match the specification in CREATE. It is not possible to subsequently change that specification.

All information in this document is purely informative and does not constitute instructions or templates for submitting customs declarations.
The declarant is solely responsible for the content of a customs declaration. All information is provided without warranty.
