

WKS Invalidation Request for Re-Export Notification (REECAN, InvalidationRequestReExportWKSDE)

This BOX object cancels a Re-Export Notification in the WKS procedure.

The request for the invalidation of the Re-Export Notification is a message from a participant to the customs administration.

Cancellation is possible once the Re-Export Notification has been registered and therefore even after the exit has been confirmed. Cancellation is not possible if

- the customs office has already scheduled the Re-Export Notification for inspection,
- the exit of the goods has already been prohibited or
- The exit of at least one package of the Re-Export Notification has already been confirmed.

The application for invalidation of the Re-Export Notification must be submitted by the declarant, who must be identical to the declarant specified in the referenced Re-Export Notification.
