

tax report for completed assessment (TAX-A, AbschliessendeFestsetzung)

This message is used for the transmission of tax reports for completed assessment. It is used when the reasons that led to the initial assessment of the import duties not being finally assessed have ceased to exist and the duties recorded in the accounts are not changed. The possibility of a change due to subsequent checks remains unaffected.

Separate tax reports for completed assessment can be generated and transmitted at different times for each item in an declaration. The final determination can be combined for several items in a declaration.
