

Exit Status (XS - StatusEXITDE)

The message is used to transmit status information on an export process to a forwarder at the customs office of exit, in particular permission to exit and the (customs-side) completion of the exit, if necessary also the prohibition of further exit and/or the delivery of a process into further processing outside of the IT process.

Remarks:
Permission granted for the exit of the goods can be revoked at any time until the exit is complete by means of a "Control measure for exit" message.
